Art Unit: 1632

This is reissue application of U.S. Patent 5,639,940. Claims 1, 2, 5-13, 16, 17, 23-25 and 34 are pending.

The finality of the office action mailed May 7, 2008 has been withdrawn. This office action responds to the non-final office action. This office action contains a new rejection regarding the reissue oath.

Applicant's statements regarding change of inventorship via the reissue oath is acknowledged. In light of this, applicant's request to change inventor ship to include only Donna E. Prunkard and Donald C. Foster is granted.

### **Rejection**

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: failure to comply with 37 § CFR 1.63(a).

- 1) Be executed, *i.e.*, signed, in accordance with either § 1.66 or § 1.68. There is no minimum age for a person to be qualified to sign, but the person must be competent to sign, *i.e.*, understand the document that the person is signing;
- (2) Identify each inventor by full name, including the family name, and at least one given name without abbreviation together with any other given name or initial;
- (3) Identify the country of citizenship of each inventor; and
- (4) State that the person making the oath or declaration believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought.

This rejection is based on the dismissal of applicant's petition under 37 § CFR 1.47(a). The oath has only been signed Donald C. Foster. Perfection of the petition under 37 § CFR 1.47(a) would overcome this rejection.

All other rejections to the reissue oath are withdrawn.
